

SEWING INSTRUCTIONS

HALF SQUARE TRIANGLES

HSTs	Eight at a time method	Four at a time method	Total HSTs number
 AC	8	1	8
 BC	8	4	12

Eight at a time method

1. On the wrong side of an **A1** square, draw two diagonal lines, one horizontal line and one vertical line so that all lines intersect in the center. Pair it **RST** with a **C1** square.
2. Sew a seam 1/4" on each side of both diagonal lines.
3. Cut along all marked lines.
4. Now you have eight triangles. Open up each triangle and press seams open. You have eight **AC** HSTs.

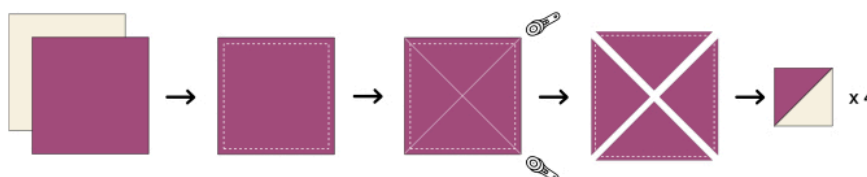

5. **Repeat** steps 1 to 4 with **B1** square and the remaining **C1** square to get eight **BC** HSTs. Don't trim HSTs now.

Four at a time method

1. Take **B2** square and pair it **RST** with **C2** square. Pin in the center.
2. Sew a seam 1/4" around **the entire perimeter** of the squares, pivoting at the corners.
3. Cut along both diagonals.
4. Now you have four triangles. Open up each triangle and press seams open. You have four additional **BC** HSTs.

The edges of your HSTs have bias cuts, so the fabric stretches easily. Please be delicate with your fabric and don't pull your blocks when pressing.

Now **trim all HSTs to 3"**.
